FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Honorable Norman Sisisky
House of Representatives

Dear Congressman Sisisky:

This is in reply to your letter of May 19, 1993, in which you inquired on behalf of your constituent, David T. Whiteley, regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235, 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz.

Your constituent is specifically concerned about the impact of these changes on radio control (R/C) hobby users. Enclosed is a discussion paper concerning our proposals for the 72-76 MHz band. In short, we expect there would be no adverse impact on R/C operations because of any proposal contained in the Notice.

We are, of course, sensitive to the concerns of both users of private land mobile radio spectrum and R/C hobbyists. We will, therefore, take your constituent's concerns into account when we develop final rules in this proceeding. As indicated in the Notice, we remain convinced that without significant regulatory change in radio operations in the bands below 512 MHz, the quality of communications in the private land mobile radio services will continue to deteriorate to the point of endangering public safety and the national economy.

We want to thank you for your interest in this proceeding. Your constituent's

Dear Ms. Rafferty:

I am writing in regard to the enclosed letter which I have received from a constituent regarding the proposed ruling on land mobile radio operations and the effect on frequencies used for radio controlled airplanes.

I would be interested in the comments of the Federal Communication Commission (FCC) regarding this proposal. If you require any additional information, please contact Chris Plaushin of my Washington staff. Thank you very much for your attention to this matter.

Sincerely,

NORMAN SISISKY
Member of Congress
